"There's nothing  
quite like a genuine  
**Timberline<sup>®</sup>**  
**High Definition<sup>®</sup>** roof!"

Your roof can represent **40% or more** of your home's "curb appeal." Improve its resale value with Timberline<sup>®</sup> High Definition<sup>®</sup> Shingles from GAF.

Timberline<sup>®</sup> Shingles with Advanced Protection<sup>®</sup> Technology are the **#1-selling shingles** in all of North America. Professional installers have long preferred the rugged, dependable performance that only a Timberline<sup>®</sup> roof can offer.

## What's the **secret** to the striking look of a Timberline® High Definition® roof?

Timberline® High Definition® Shingles are unlike any others, thanks to our patented High Definition® shadow bands (U.S. Patent No. 5,666,776). Each shadow band is applied using a sophisticated, computer-controlled "feathering" technique. When combined with our randomly blended top layer, it results in a shingle with exceptional depth and dimension—and a **striking look unmatched by any other brand.**

But don't just take our word for it. See for yourself. When you compare Timberline® High Definition® Shingles to typical architectural shingles, it's easy to see why they'll look sharper and more beautiful on your roof—while enhancing the resale value of your home.

## See the difference...

**Timberline® High Definition® Shingles**

**Another Major Brand**

*The color blends on Timberline® High Definition® Shingles (top) are sharp and well defined—to give your roof maximum dimensionality and depth.*

**But great performance is only half the story.** Choosing Timberline® Shingles will not only protect your most valuable asset—they'll beautify your home for years to come. In fact, an independent research firm surveyed homeowners about the brand of architectural shingles they preferred. The result: more homeowners preferred the look of Timberline® Shingles to the other leading brands! So why settle for anything less than a genuine Timberline® roof?

To ensure the closest color consistency for your roof, ask your contractor to use genuine Timbertex® Ridge Cap Shingles (or Ridglass®, in the West)!*

- **Peace Of Mind...** Up to a Lifetime Ltd. warranty when installed on Lifetime Shingle roofs†

# TIMBERLINE® COOL SERIES

ENERGY- SAVING SHINGLES

**Now get potential energy and cost savings when you install GAF Timberline® Cool Series Shingles.**

Thanks to modern reflective technology, you can join the green revolution with Cool Series Roofing Shingles. Our highly reflective shingles can help to reduce temperatures in your attic, so your home will stay cooler in the summer—and help to save on air conditioning costs.

Simply put, our Cool Series Shingles use specially-designed roofing granules that have greater reflectance than traditional shingles. The result is reduced transfer of heat to the space below—to keep you cooler in the summer.

Cool roofs may save residents an average 7-15%<sup>1</sup> of total cooling costs, depending on geography, structure, and climate. In warmer climates, cooling cost savings may be greater year round. In some areas, cool roofs qualify for energy tax credits and other incentives, saving you even more money.<sup>2</sup>

## It's sooo cool!<sup>†</sup>

*Thanks to the reflective nature of the Cool Series Shingles, part of the heat radiating from the sun gets reflected, reducing the heat in the attic and heat going into the house. It may translate into substantial savings in air conditioning bills.*
