TIMBERLINE ULTRAHD® REFLECTOR SERIES™

LIFETIME HIGH DEFINITION® SHINGLES

Vibrant. Reflective. Bold. Your Next Cool Roof.

gaf.com/24

When the sun's rays are at their most intense, your home will
be the coolest on the block. And not just because your
Timberline Ultra HD® Reflector Series™ Shingles are highly reflective.
They capture the vivid color you've always wanted in a cool roof
while defining your home with exceptional dimensionality.
Even through sunglasses, you can't miss their brilliance.
Timberline Ultra HD® Reflector Series™ Shingles. Cool has never looked so hot.

Aged Chestnut

Don't just be compliant... be

CALIFORNIA COOL

When it comes to cool roofs in California, energy-conscious homeowners have had limited options to choose from (which is definitely *not* cool).

But now, GAF Timberline Ultra HD® Reflector Series™ Shingles offer colors so vibrant and dimension so striking, your home will outshine the neighborhood!

Made with a new innovative granule technology, Timberline Ultra HD® Reflector Series™ Shingles lock in deep, rich colors inspired by nature — from the warm tones of a California sunrise to cool ocean-born hues to the earthy shades of the coastline. Why go elsewhere when you can ride an epic wave of highly reflective shingle colors that meet your cool roofing needs!

That's not all. Timberline Ultra HD® Reflector Series™ Shingles make a bold statement designed to knock even the savviest surfers off their feet, because they're **up to 53% thicker** than standard architectural shingles!¹ This gives our roof a truly ultra-dimensional appearance combined with an enhanced shadow effect for a beautiful, genuine wood-shake look.

Did you know that Timberline® Shingles are the #1-selling shingles in North America? So you'll be installing a high-performing cool roof with remarkable distinction and style!

California Code Compliance

With Timberline Ultra HD® Reflector Series™ Shingles, you get proven performance and reliability as well as beauty — plus potential cooling cost savings!²

They also:

- Can be used to comply with Title 24 cool roof requirements
- Are rated by the Cool Roof Rating Council
- Meet the cool roof requirements of the Los Angeles Green Building Code

¹ Comparison refers to Timberline HD® Shingles. Thickness varies by plant; see actual shingles for comparison.

² Energy cost savings are not guaranteed and the amount of savings may vary based on climate zone, utility rates, radiative properties of roofing products, insulation levels, HVAC equipment efficiency, and other factors.

The Darkest “Cool” Shingle You Can Buy!

Before now, if you wanted a highly reflective dark-colored roof that met the cool roof requirements of Title 24, you would have had to settle for colors that were much less vibrant than those available for traditional shingles.

But innovative granule technology has changed everything! New EcoDark™ granules produce dynamic color never before seen in a cool roof — including Charcoal, the darkest cool color available.

Now, you can finally have the rich, vibrant colors you've always wanted in a highly reflective shingle!

What could possibly be any cooler?

Color Shown:
Stone Gray

CHARCOAL

This dark, rich gray is a favorite thanks to its flexibility. Pairing well with both warm and cool colors, **Charcoal** makes a statement on a wide range of home styles.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

SAGE WOOD

Blending beautifully with nature, **Sagewood** straddles the line between warm and cool tones. It works extremely well as a companion to sages, creams, ivories, and any shade of beige.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

COASTAL SLATE

This cool gray has a lovely green undertone — exactly like traditional slate. **Coastal Slate** coordinates effortlessly with both grays and greens on the cool side, as well as with white, cream, and ivory exterior colors.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

AGED CHESTNUT

This nature-inspired brown pairs beautifully with most other warm exterior colors, such as beige, taupe, cream, gold, and yellow.

Aged Chestnut's genuine wood-shake look will give your home a warm, inviting feel.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

SANDALWOOD

Reminiscent of a windswept shoreline, this inviting shingle pairs comfortably with beige/brown and golden tones. Extremely versatile and welcoming, **Sandalwood** complements virtually any style of home.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

STONE GRAY

This charming gray has a blue note to it, making it cooler and more versatile. A natural complement to all other grays and blues, **Stone Gray** also performs well alongside yellows, creams, and ivories.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

BIRCHWOOD

This soft, neutral shade of gray flatters homes that feature clean lines. Characterized by its subtle tints, **Birchwood** harmonizes perfectly with city or suburban environments.

CRRC Product ID# 0676-0096

HICKORY

This appealing brown shade has the added element of a red undertone. **Hickory** looks truly grand on homes with warm neutrals of brown and beige as well as with yellows and golds.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

Timberline Ultra HD® Reflector Series™ Shingles Offer Great Benefits And May Help Save On Cooling Costs!¹

GAF, North America's largest roofing manufacturer, is proud to offer Timberline Ultra HD® Reflector Series™ Shingles. They're your best choice for the cool roof you need with the distinctive style, definition, and color you crave!

- **Timberline Ultra HD® Reflector Series™ Shingles meet the prescriptive solar reflectance** and thermal emittance requirements according to the 2016 Title 24 Standards
- **Timberline Ultra HD® Reflector Series™ Shingles** are rated by the Cool Roof Rating Council
- **Timberline Ultra HD® Reflector Series™ Shingles** meet the cool roof requirements of the Los Angeles Green Building Code

- **Ultra-Dimensional Look...** Features GAF proprietary color blends and enhanced shadow effect for an ultra-dimensional wood-shake look
- **High Performance...** Designed with Advanced Protection® Shingle Technology, which reduces the use of natural resources while providing excellent protection for your home (visit gaf.com/aps to learn more)
- **Stays In Place...** Dura Grip™ Adhesive seals each shingle tightly and reduces the risk of shingle blow-off. Shingles warranted to withstand winds up to 130 mph²

- **Highest Roofing Fire Rating...** UL Class A, Listed to ANSI/UL 790
- **Peace Of Mind...** Lifetime Ltd. transferable warranty with Smart Choice® Protection (non-prorated material and installation labor coverage) for the first ten years³

¹ Energy cost savings are not guaranteed and the amount of savings may vary based on climate zone, utility rates, radiative properties of roofing products, insulation levels, HVAC equipment efficiency, and other factors.

² This wind speed coverage requires special installation; see GAF Shingle & Accessory Ltd. Warranty for details.

³ See GAF Shingle & Accessory Ltd. Warranty for complete coverage and restrictions. The word "Lifetime" refers to the length of coverage provided by the GAF Shingle & Accessory Ltd. Warranty and means as long as the original individual owner(s) of a single-family detached residence [or the second owner(s) in certain circumstances] owns the property where the shingles are installed. For owners/structures not meeting the above criteria, Lifetime coverage is not applicable.
